

## The British Institute of Musculoskeletal Medicine

### Spring Symposium 21/22 April 2012 Keele University, Staffordshire

#### The Musculoskeletal Service – What's in the Tin?

This meeting brings together all the stakeholders in a community based musculoskeletal service, to debate and argue the best combination for the winning team.

Match replays of existing services to guide the manager on the player selection with a view to a balance of skills, position, timing and efficient delivery.

Special skills workshops will be available which are guaranteed to increase your transfer value.
